Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Dublin Unified School District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Dublin Unified School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Dublin Unified School District, as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

(Continued)

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *Management's Discussion and Analysis* on pages 4 to 10, the General Fund Budgetary Comparison Schedule, the Schedule of the District's Proportionate Share of the Net Pension Liability, and the Schedule of the District's Contributions on pages 41 to 45 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Dublin Unified School District's basic financial statements. The accompanying schedule of expenditure of federal awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and the other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of expenditure of federal awards and other supplementary information as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information, except for the Schedule of Financial Trends and Analysis, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards and other supplementary information as listed in the table of contents, except for the Schedule of Financial Trends and Analysis, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Schedule of Financial Trends and Analysis has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2019 on our consideration of Dublin Unified School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Dublin Unified School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2019**

This section of Dublin Unified School District's annual financial report presents District management's discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2019. Please read it in conjunction with the District's financial statements, which immediately follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Financial Statements

The financial statements presented herein include all of the activities of Dublin Unified School District (the District) using the integrated approach as prescribed by GASB Statement Number 34.

The *Government-Wide Financial Statements* present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting. These statements include all assets of the District (including capital assets) as well as all liabilities (including long-term debt). Additionally, certain eliminations have occurred as prescribed by the statement in regards to inter fund activity, payables and receivables.

The *Fund Financial Statements* include statements for each of the two categories of activities: governmental and fiduciary.

The *Governmental Activities* are prepared using the current financial resources measurement focus and modified accrual basis of accounting.

The *Fiduciary Activities* are agency funds, which only report a balance sheet and do not have a measurement focus.

Reconciliation of the Fund Financial Statements to the Government-Wide Financial Statements is provided to explain the differences created by the integrated approach.

The Primary unit of the government is the Dublin Unified School District.

FINANCIAL HIGHLIGHTS OF THE PAST YEAR

- The District's reserve for economic uncertainty was \$3,820,612 in General Fund, and the Special Reserve balance was \$10,822,537, which is included with the General Fund for the purposes of financial reporting.
- The enrollment continued at a high growth level, with 12,090 students at the annual census day.

REPORTING THE DISTRICT AS A WHOLE

The Statement of Net Position and the Statement of Activities

The *Statement of Net Position* and the *Statement of Activities* report information about the District as a whole and about its activities. These statements include *all* assets and liabilities of the District using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's *net position* and changes in them. Net positions the difference between assets and liabilities, one way to measure the District's financial health, or *financial position*. Over time, *increases or decreases* in the District's net position are one indicator of whether its *financial health* is improving or deteriorating. Other factors to consider are changes in the District's property tax base and the condition of the District's facilities.

The relationship between revenues and expenses is the District's *operating results*. Since the Board's responsibility is to provide services to our students and not to generate profit as commercial entities do, one must consider other factors when evaluating the *overall health* of the District. The quality of the education and the safety of our schools will likely be an important component in this evaluation.

In the *Statement of Net Position* and the *Statement of Activities*, the District activities are presented as follows:

Governmental activities - Most of the District's services are reported in this category. This includes the education of kindergarten through grade twelve students, adult education students, the operation of child development activities, and the on-going effort to improve and maintain buildings and sites. Property taxes, state income taxes, user fees, interest income, Federal, State and local grants, as well as general obligation bonds, finance these activities.

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds - not the District as a whole. Some funds are required to be established by State law and by bond covenants. However, management establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money that it receives from the Federal government and the State of California.

THE DISTRICT AS TRUSTEE

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or *fiduciary*, for funds held on behalf of others, like our funds for associated student body activities. The District's fiduciary activities are reported in separate *Statements of Fiduciary Net Position*. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

THE DISTRICT AS A WHOLE

Net Position

The District's net position was \$263,189,490 and \$255,102,109 for the fiscal years ended June 30, 2019 and 2018, respectively. Of this amount, \$(87,552,010) and \$(87,552,010) were unrestricted for each respective year. Restricted net position are reported separately to show legal constraints from debt covenants and enabling legislation that limit the School Board's ability to use those net position for day-to-day operations. Our analysis below focuses on the ending net position (Table 1) and change in net position (Table 2) of the District's governmental activities.

Table 1

	Governmental Activities

Unrestricted	(97,533,605)	(87,552,010)
Total Net Position	\$ 263,189,492	\$ 255,102,109

The unrestricted net position of governmental activities represents the *accumulated* results of all past years' operations. It means that if we had to, we could pay off all of our bills *today* including all of our non-capital liabilities (compensated absences, as an example). The State portion of our employee retirement has entered our books in the interest of transparency.

Changes in Net Position

The results of this year's operations for the District as a whole are reported in the *Statement of Activities*. Table 2 takes the information from the Statement, rounds off the numbers, and rearranges them slightly so you can see our total revenues for the year.

Change in Net Position	\$ 8,087,383	\$ 3,931,848

Governmental Activities

The cost of all of our governmental activities was \$169,110,637 and \$159,660,268 for 2019 and 2018, respectively. However, the amount that our taxpayers ultimately financed for these activities through local taxes was only \$79,579,908 and \$75,158,897 for 2019 and 2018. The cost was paid by those who benefited from the programs with \$12,493,455 and \$2,098,783 for 2019 and 2018 or by other governments and organizations who subsidized certain programs with grants and contributions \$24,837,230 and \$16,871,290 for 2019 and 2018. We paid for the remaining "public benefit" portion of our governmental activities with State funds and with other revenues, like interest and general entitlements.

In Table 3, we have presented the net cost (total cost less revenues generated by the activities) of each of the District's seven largest functions - regular program instruction, guidance and counseling, school administration, pupil transportation, administration, maintenance and operations, and other services as well as each program's *net* cost. As discussed above, net cost shows the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

THE DISTRICT'S FUNDS

As the District completed this year, our governmental funds reported a combined fund balance of \$278,102,629, an increase of \$5,055,207.

The primary driver of this increase was our General Fund, which is our principal operating fund. The fund balance in the General Fund, including the Special Reserve Fund, increased from \$31,279,769 to \$37,139,142. This increase is due to continued enrollment growth and continued conservative spending, and by the influx of additional revenue due to full-funding of the District's LCFF target.

General Fund Budgetary Highlights

Over the course of the year, the District revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. The final amendment to the budget was adopted as the books were closed in September 2019. A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided for the General Fund in our annual report.

- Actual LCFF sources increased beyond our original budget primarily because of strong enrollment growth and full funding of the LCFF target.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

In considering the District Budget for the 2019/2020 year, the District Board and management used the following criteria:

The key assumptions in our revenue forecast are:

1. Average Daily attendance will grow by 524 ADA.
2. At budget adoption, we were settled with our bargaining groups.
3. The District revenue under LCFF is now \$114,236,259.

Expenditures are based on the following forecasts:

	<u>Enrollment</u>
Grades kindergarten through fifth	6,520
Grades six through eight	2,940
Grades nine through twelve	3,300

The new items specifically addressed in the budget are:

- Step and Column pay schedules are being implemented for all bargaining units.
- Increases have been budgeted for both the rate contributions to the California State Teachers Retirement System (CalSTRS) and California Public Employees Retirement System (CalPERS).

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need any additional financial information, contact the Assistant Superintendent, Business Services, at Dublin Unified School District, 7471 Larkdale Avenue, Dublin, California, 94568-1599.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
June 30, 2019

Total fund balances - Governmental Funds \$ 278,102,629

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used for governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds. The cost of the assets is \$643,945,416 and the accumulated depreciation is \$82,876,558 (Note 4). 561,068,858

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. Long-term liabilities at June 30, 2019 consisted of (Note 5):

General Obligation Bonds	\$ (423,284,766)	
Accreted interest	(27,968,893)	
Unamortized premiums	(27,164,246)	
Net pension liability (Notes 7 and 8)	<u>(125,452,000)</u>	
		(603,869,905)

In the governmental funds, deferred outflows of resources resulting from defeasance of debt are not recorded. In governmental activities, for advance refundings resulting in defeasance of debt reported in governmental activities, the difference between reacquisition price and the net carrying amount of the retired debt is reported as deferred outflows of resources. 2,717,438

In the government funds, deferred outflows and inflows of resources relating to pensions are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to pensions are reported (Notes 7 and 8).

Deferred outflows of resources relating to pensions	\$ 42,817,915	
Deferred inflows of resources relating to pensions	<u>(5,943,000)</u>	
		36,874,915

Unmatured interest is not recognized until it is due and, therefore, is not accrued as a payable in the governmental funds. (11,704,443)

Total net position - governmental activities \$ 263,189,492

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Dublin Unified School District (the "District") accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies:

Reporting Entity: The Governing Board is the level of government which has governance responsibilities over all activities related to public school education in the District. The Board is not included in any other governmental "reporting entity" as defined by the GASB since Board members have decision-making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters.

The District has reviewed GASB criteria to determine whether other entities should be included within its financial reporting entity. The District has determined that no other outside entity meets the criteria, and therefore, no other agencies have been included as components unit in the District's financial statements.

Basis of Presentation - Financial Statements: The basic financial statements include a Management's Discussion and Analysis (MD & A) section providing an analysis of the District's overall financial position and results of operations, financial statements prepared using full accrual accounting for all of the District's activities, including infrastructure, and a focus on the major funds.

Basis of Presentation - Government-Wide Financial Statements: The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole. Fiduciary funds are not included in the government-wide financial statements. Fiduciary funds are reported only in the Statement of Fiduciary Assets and Liabilities at the fund financial statement level.

The Statement of Net Position and the Statement of Activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of Governmental Accounting Standards Board Codification Section (GASB Cod. Sec.) N50.118-.121.

Program revenues: Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the District's general revenues.

Allocation of indirect expenses: The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term liabilities is considered an indirect expense and is reported separately on the Statement of Activities.

Basis of Presentation - Fund Accounting: The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

DUBLIN UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A - Major Funds

General Fund:

The General Fund is the general operating fund of the District and accounts for all revenues and expenditures of the District, not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund. For financial reporting purposes, the balance of the Special Reserve for Other Than Capital Outlay Projects Fund is included with the General Fund.

Building Fund:

The Building Fund is a capital projects fund used to account for resources used for the acquisition or construction of major capital facilities of the District.

Bond Interest and Redemption Fund:

The Bond Interest and Redemption Fund is a debt service fund used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

B - Other Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. This classification includes the Adult Education, Cafeteria, and Deferred Maintenance Funds.

Capital Projects Funds are used to account for resources that are legally restricted for the purpose of the acquiring or constructing capital facilities of the District. This classification includes the Capital Facilities and County School Facilities Funds.

The Agency Fund is used to account for the various funds for which the District acts as an agent. This classification consists of the Student Body Accounts.

Basis of Accounting: Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

Accrual: Governmental activities in the government-wide financial statements and the fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual: The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term liabilities, if any, is recognized when due.

DUBLIN UNIFIED SCHOOL DISTRICT
 NOTES TO FINANCIAL STATEMENTS
 June 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgets and Budgetary Accounting: By state law, the Governing Board must adopt a final budget by July 1. A public hearing is conducted to receive comments prior to adoption. The Governing Board complied with these requirements.

Receivables: Receivables are made up principally of amounts due from the State of California and categorical programs. The District has determined that no allowance for doubtful accounts was necessary at June 30, 2019.

Stores Inventory: Inventories in the General and Cafeteria Funds are valued at average cost. Inventory recorded in the General and Cafeteria Funds consists mainly of school supplies and consumable supplies. Inventories are recorded as an expenditure at the time the individual inventory items are transferred from the warehouse to schools and offices.

Capital Assets: Capital assets purchased or acquired, with an original cost of \$5,000 or more, are recorded at historical cost or estimated historical cost. Contributed assets are reported at acquisition value for the contributed asset. Additions, improvements and other capital outlay that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Capital assets are depreciated using the straight-line method over 2 - 50 years depending on asset types.

Deferred Outflows/Inflows of Resources: In addition to assets, the Statement of Net Position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then. The District has recognized a deferred loss on refunding reported, which is in the Statement of Net Position. A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter life of the refunded or refunding debt. Additionally, the District has recognized a deferred outflow of resources related to the recognition of the net pension liability reported in the Statement of Net Position.

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time. The District has recognized a deferred inflow of resources related to the recognition of the net pension liability reported in the Statement of Net Position.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State Teachers' Retirement Plan (STRP) and Public Employers Retirement Fund B (PERF B) and additions to/deductions from STRP's and PERF B's fiduciary net position have been determined on the same basis as they are reported by STRP and PERF B. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Certain investments are reported at fair value. The following is a summary of pension amounts in aggregate as of June 30, 2019:

	<u>STRP</u>	<u>PERF B</u>	<u>Total</u>
Deferred outflows of resources	\$ 34,736,884	\$ 8,081,031	\$ 42,817,915
Deferred inflows of resources	\$ 5,129,000	\$ 814,000	\$ 5,943,000
Net pension liability	\$ 96,677,000	\$ 28,775,000	\$ 125,452,000
Pension expense	\$ 23,947,283	\$ 6,681,100	\$ 30,628,383

(Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Interfund Activity: Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

Accumulated Sick Leave: Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as a operating expenditure or expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits for all STRP employees and certain PERF B employees, when the employee retires.

Unearned Revenue: Revenue from federal, state, and local special projects and programs is recognized when qualified expenditures have been incurred. Funds received but not earned are recorded as unearned revenue until earned.

Net Position: Net position is displayed in three components:

1 - Net Investment in Capital Assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent bond proceeds) of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

2 - Restricted Net Position - Restrictions of the ending net position indicate the portions of net position not appropriate for expenditure or amounts legally segregated for a specific future use. The restriction for legally restricted programs represents the portion of net position restricted to specific program expenditures. The restriction for capital projects represents the portion of net position restricted for capital projects. The restriction for debt service represents the portion of net position available for the retirement of debt. It is the District's policy to use restricted net position first when allowable expenditures are incurred.

3 - Unrestricted Net Position - All other net position that do not meet the definitions of "restricted" or "net investment in capital assets".

Fund Balance Classifications: Governmental Accounting Standards Board Codification Sections 1300 and 1800, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB Cod. Sec. 1300 and 1800) implements a five-tier fund balance classification hierarchy that depicts the extent to which a government is bound by spending constraints imposed on the use of its resources. The five classifications, discussed in more detail below, are nonspendable, restricted, committed, assigned and unassigned.

A - Nonspendable Fund Balance:

The nonspendable fund balance classification reflects amounts that are not in spendable form, such as revolving fund cash, prepaid expenditures and stores inventory.

B - Restricted Fund Balance:

The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation. These are the same restrictions used to determine restricted net position as reported in the government-wide statements.

(Continued)

DUBLIN UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
June 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C - Committed Fund Balance:

The committed fund balance classification reflects amounts subject to internal constraints self-imposed by formal action of the Governing Board. The constraints giving rise to committed fund balance must be imposed no later than the end of the reporting period. The actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements. Formal action by the Governing Board is required to remove any commitment from any fund balance. At June 30, 2019, the District had no committed fund balances.

D - Assigned Fund Balance:

The assigned fund balance classification reflects amounts that the District's Governing Board has approved to be used for specific purposes, based on the District's intent related to those specific purposes. While the Governing Board has empowered members of management to suggest individual amounts to be assigned, as of June 30, 2019 no formal designation of assignment authority has occurred and the Governing Board retains ultimate authority for assigning fund balance.

E - Unassigned Fund Balance:

In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes.

In any fund other than the General Fund, a positive unassigned fund balance is never reported because amounts in any other fund are assumed to have been assigned, at least, to the purpose of that fund. However, deficits in any fund, including the General Fund that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

Fund Balance Policy: The District has an expenditure policy relating to fund balances. For purposes of fund balance classifications, expenditures are to be spent from restricted fund balances first, followed in order by committed fund balances (if any), assigned fund balances and lastly unassigned fund balances.

While GASB Cod. Sec. 1300 and 1800 do not require Districts to establish a minimum fund balance policy or a stabilization arrangement, GASB Cod. Sec. 1300 and 1800 do require the disclosure of a minimum fund balance policy and stabilization arrangements, if they have been adopted by the Governing Board. At June 30, 2019, the District has not established a minimum fund balance policy nor has it established a stabilization arrangement.

Custodial Relationships: The Agency Fund represents the assets and liabilities of various student organizations within the District. As the funds are custodial in nature, no measurement of operating results is involved.

Property Taxes: Secured property taxes are attached as an enforceable lien on property as of January 1. Taxes are due in two installments on or before December 10 and April 10. Unsecured property taxes are due in one installment on or before August 31. The County of Alameda bills and collects taxes for the District. Tax revenues are recognized by the District when received.

Encumbrances: Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. All encumbrances are liquidated as of June 30.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Elimination and Reclassifications: In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

Estimates: The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Accordingly, actual results may differ from those estimates.

NOTE 2 - CASH AND INVESTMENTS

Cash and investments at June 30, 2019 consisted of the following:

	<u>Governmental Activities</u>	<u>Fiduciary Activities</u>
Pooled Funds:		
Cash in County Treasury	\$ 253,581,948	\$ -
Deposits:		
Cash on hand and in banks	-	877,627
Cash with Fiscal Agent	29,010,000	-
Cash awaiting deposit	803,784	-
Cash in revolving fund	75,000	-
Totals	\$ 283,470,732	\$ 877,627

Pooled Funds: In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the interest bearing Alameda County Treasurer's Pooled Investment Fund. The District is considered to be an involuntary participant in an external investment pool. The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's prorata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Deposits - Custodial Credit Risk: The District limits custodial credit risk by ensuring uninsured balances are collateralized by the respective financial institution. Cash balances held in banks are insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC) and are collateralized by the respective financial institution. At June 30, 2019, the carrying amount of the District's accounts was \$952,627 and the bank balances were \$989,384. Of the bank balances, \$327,005 was insured by the FDIC and \$662,379 was uninsured, but remained collateralized.

Deposits - Cash with Fiscal Agent: Cash with Fiscal Agent represents amounts held in escrow by a party custodian in the District's name. The balances are comprised entirely of cash equivalents and are carried at amortized cost.

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN

General Information about the State Teachers' Retirement Plan

Plan Description: Teaching-certified employees of the District are provided with pensions through the State Teachers' Retirement Plan (STRP) – a cost-sharing multiple-employer defined benefit pension plan administered by the California State Teachers' Retirement System (CalSTRS). The Teachers' Retirement Law (California Education Code Section 22000 et seq.), as enacted and amended by the California Legislature, established this plan and CalSTRS as the administrator. The benefit terms of the plans may be amended through legislation. CalSTRS issues a publicly available financial report that can be obtained at <http://www.calstrs.com/comprehensive-annual-financial-report>.

Benefits Provided: The STRP Defined Benefit Program has two benefit formulas:

- CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS.
- CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS.

The Defined Benefit (DB) Program provides retirement benefits based on members' final compensation, age and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members. There are several differences between the two benefit formulas which are noted below.

CalSTRS 2% at 60

CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor, known as the career factor. The maximum benefit with the career factor is 2.4 percent of final compensation.

CalSTRS calculates retirement benefits based on a one-year final compensation for members who retired on or after January 1, 2001, with 25 or more years of credited service, or for classroom teachers with less than 25 years of credited service if the employer elected to pay the additional benefit cost prior to January 1, 2014. One-year final compensation means a member's highest average annual compensation earnable for 12 consecutive months calculated by taking the creditable compensation that a member could earn in a school year while employed on a fulltime basis, for a position in which the person worked. For members with less than 25 years of credited service, final compensation is the highest average annual compensation earnable for any three consecutive years of credited service.

CalSTRS 2% at 62

CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS’ RETIREMENT PLAN (Continued)

All CalSTRS 2% at 62 members have their final compensation based on their highest average annual compensation earnable for three consecutive years of credited service.

Contributions: Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers’ Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

In June 2019, California Senate Bill 90 (SB 90) was signed into law and appropriated approximately \$2.2 billion in fiscal year 2018–19 from the state’s General Fund as contributions to CalSTRS on behalf of employers. The bill requires portions of the contribution to supplant the amounts remitted by employers such that the amounts remitted will be 1.03 and 0.70 percentage points less than the statutorily required amounts due for fiscal years 2019–20 and 2020–21, respectively. The remaining portion of the contribution is allocated to reduce the employers’ share of the unfunded actuarial obligation of the Defined Benefit Program.

The employer contribution rates set in statute by the CalSTRS Funding Plan were not changed by the passage of SB 90. A summary of statutory contribution rates and other sources of contributions to the Defined Benefit Program are as follows:

Members - Under CalSTRS 2% at 60, the member contribution rate was 10.25 percent of applicable member earnings for fiscal year 2018-2019. Under CalSTRS 2% at 62, members contribute 50 percent of the normal cost of their retirement plan, which resulted in a contribution rate of 10.205 percent of applicable member earnings for fiscal year 2018-2019.

In general, member contributions cannot increase unless members are provided with some type of “comparable advantage” in exchange for such increases. Under previous law, the Legislature could reduce or eliminate the 2 percent annual increase to retirement benefits. As a result of AB 1469, effective July 1, 2014, the Legislature cannot reduce the 2 percent annual benefit adjustment for members who retire on or after January 1, 2014, and in exchange for this “comparable advantage,” the member contribution rates have been increased by an amount that covers a portion of the cost of the 2 percent annual benefit adjustment.

Employers – 16.28 percent of applicable member earnings.

In accordance with AB 1469, employer contributions will increase from 8.25 percent to a total of 19.1 percent of applicable member earnings phased in over seven years starting in 2014. The legislation also gives the CalSTRS board limited authority to adjust employer contribution rates from July 1, 2021 through June 2046 in order to eliminate the remaining unfunded actuarial obligation related to service credited to members prior to July 1, 2014. The CalSTRS board cannot adjust the rate by more than 1 percent in a fiscal year, and the total contribution rate in addition to the 8.25 percent cannot exceed 12 percent.

The CalSTRS employer contribution rate increases effective for fiscal year 2018-2019 through fiscal year 2045-46 are summarized in the table below:

<u>Effective Date</u>	<u>Prior Rate</u>	<u>Increase</u>	<u>Total</u>
July 01, 2018	8.25%	8.03%	16.28%

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS’ RETIREMENT PLAN (Continued)

The District contributed \$9,796,884 to the plan for the fiscal year ended June 30, 2019.

State - 9.828 percent of the members’ creditable earnings from the fiscal year ending in the prior calendar year.

As a result of AB 1469, the additional state appropriation required to fully fund the benefits in effect as of 1990 by 2046 is specific in subdivision (b) of Education Code Section 22955.1. The increased contributions end as of fiscal year 2045-2046.

The state’s base contribution to the Defined Benefit Program is calculated based on creditable compensation from two fiscal years prior. The state rate will increase to 5.811 percent on July 1, 2019, to continue paying down the unfunded liabilities associated with the benefits structure that was in place in 1990 prior to certain enhancements in benefits and reductions in contributions. Additionally, the enactment of SB 90 will result in future supplemental contributions to be made by the state to pay down its portion of the unfunded actuarial obligation of the Defined Benefit Program in fiscal years 2019–20 through 2022–23. The CalSTRS state contribution rates effective for fiscal year 2018-19 and beyond are summarized in the table below:

<u>Effective Date</u>	<u>Base Rate</u>	<u>AB 1469 Increase For 1990 Benefit Structure</u>	<u>SBMA Funding(1)</u>	<u>Total State Appropriation to DB Program</u>
July 01, 2018	2.017%	5.311%(2)	2.50%	9.828%
July 01, 2019	2.017%	5.311%(2)	2.50%	10.828%(3)
July 01, 2020				
June 30, 2046	2.017%	(4)	2.50%	(4)
July 01, 2046				
and thereafter	2.017%	(5)	2.50%	4.517%(5)

(1) This rate does not include the \$72 million reduction in accordance with Education Code Section 22954.

(2) In May 2019, the board of CalSTRS exercised its limited authority to increase the state contribution rate by 0.5 percent of the payroll effective July 1, 2019.

(3) This rate does not include the \$2.2 billion supplemental state contribution on behalf of employers pursuant to SB 90.

(4) The CalSTRS board has limited authority to adjust state contribution rates annually through June 30, 2046 in order to eliminate the remaining unfunded actuarial obligation associated with the 1990 benefit structure. The board cannot increase the rate by more than 0.50 percent in a fiscal year, and if there is no unfunded actuarial obligation, the contribution rate imposed to pay for the 1990 benefit structure would be reduced to 0 percent. Rates in effect prior to July 1, 2014, are reinstated if necessary to address any remaining 1990 unfunded actuarial obligation from July 1, 2046, and thereafter.

(5) From July 1, 2046, and thereafter, the rates in effect prior to July 1, 2014, are reinstated, if necessary, to address any remaining 1990 unfunded actuarial obligation.

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS’ RETIREMENT PLAN (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District’s proportionate share of the net pension liability	\$ 96,677,000
State’s proportionate share of the net pension liability associated with the District	<u>55,352,000</u>
Total	<u><u>\$ 152,029,000</u></u>

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017. The District’s proportion of the net pension liability was based on the District’s share of contributions to the pension plan relative to the contributions of all participating school Districts and the State. At June 30, 2018, the District’s proportion was 0.105 percent, which was an increase of 0.006 percent from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of \$23,947,283 and revenue of \$10,016,495 for support provided by the State. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 300,000	\$ 1,404,000
Changes of assumptions	15,019,000	-
Net differences between projected and actual earnings on investments	-	3,723,000
Changes in proportion and differences between District contributions and proportionate share of contributions	9,621,000	2,000
Contributions made subsequent to measurement date	<u>9,796,884</u>	<u>-</u>
Total	<u><u>\$ 34,736,884</u></u>	<u><u>\$ 5,129,000</u></u>

NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS’ RETIREMENT PLAN (Continued)

\$9,796,884 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ended <u>June 30,</u>	
2020	\$ 5,839,317
2021	\$ 4,445,317
2022	\$ 1,907,817
2023	\$ 3,289,483
2024	\$ 3,696,233
2025	\$ 632,833

Differences between expected and actual experience and changes in assumptions are amortized over a closed period equal to the average remaining service life of plan members, which is 7 years as of the June 30, 2018 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

Actuarial Methods and Assumptions: The total pension liability for the STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2017, and rolling forward the total pension liability to June 30, 2018. The financial reporting actuarial valuation as of June 30, 2017, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2017
Experience Study	July 1, 2010 through June 30, 2015
Actuarial Cost Method	Entry age normal
Investment Rate of Return	7.10%
Consumer Price Inflation	2.75%
Wage Growth	3.50%
Post-retirement Benefit Increases	2.00% simple for DB Not applicable for DBS/CBB

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant as an input to the process. The actuarial investment rate of return assumption was adopted by the CalSTRS board in February 2017 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

<u>Asset Class</u>	<u>Assumed Asset Allocation</u>	<u>Long-Term* Expected Real Rate of Return</u>
Global Equity	47%	6.30%
Fixed Income	12	0.30
Real Estate	13	5.20
Private Equity	13	9.30
Absolute Return / Risk Mitigating Strategies	9	2.90
Inflation Sensitive	4	3.80
Cash / Liquidity	2	(1.00)

* 20-year geometric average

Discount Rate: The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increase per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the STRP’s fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 8 – NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B

General Information about the Public Employer’s Retirement Fund B

Plan Description: The schools cost-sharing multiple-employer defined benefit pension plan Public Employer’s Retirement Fund B (PERF B) is administered by the California Public Employees’ Retirement System (CalPERS). Plan membership consists of non-teaching and non-certified employees of public schools (K-12), community college districts, offices of education, charter and private schools (elective) in the State of California.

The Plan was established to provide retirement, death and disability benefits to non-teaching and noncertified employees in schools. The benefit provisions for Plan employees are established by statute. CalPERS issues a publicly available financial report that can be obtained at: <https://www.calpers.ca.gov/docs/forms-publications/cafr-2018.pdf>.

Benefits Provided: The benefits for the defined benefit plans are based on members’ years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years (10 years for State Second Tier members) of credited service.

Contributions: The benefits for the defined benefit pension plans are funded by contributions from members and employers, and earnings from investments. Member and employer contributions are a percentage of applicable member compensation. Member contribution rates are defined by law and depend on the respective employer’s benefit formulas. Employer contribution rates are determined by periodic actuarial valuations or by state statute. Actuarial valuations are based on the benefit formulas and employee groups of each employer. Employer contributions, including lump sum contributions made when districts first join PERF B, are credited with a market value adjustment in determining contribution rates.

The required contribution rates of most active plan members are based on a percentage of salary in excess of a base compensation amount ranging from zero dollars to \$863 monthly.

Required contribution rates for active plan members and employers as a percentage of payroll for the year ended June 30, 2019 were as follows:

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability of \$28,775,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017. The District’s proportion of the net pension liability was based on the District’s contributions to the pension plan relative to the contributions of all participating school Districts. At June 30, 2018, the District’s proportion was 0.108 percent, which was a decrease of 0.003 percent from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of \$6,681,100 and revenue of \$975,601 for support provided by the State. At June 30, 2019, and , the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

The mortality table used was developed based on CalPERS specific data. The table includes 20 years of mortality improvements using Society of Actuaries 90% of Scale MP 2016. For more details on this table, please refer to the 2017 experience study report.

All other actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period from 1997 to 2015, including updates to salary increase, mortality and retirement rates. Further details of the Experience Study can be found at CalPERS' website.

Discount Rate: The discount rate used to measure the total pension liability was 7.15 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Plan. The results of the crossover testing for the Plan are presented in a detailed report that can be obtained at CalPERS’ website.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected cash flows of the Plan. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the Plan’s asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

Sensitivity of the District’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 7.15 percent, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15 percent) or 1-percentage-point higher (8.15 percent) than the current rate:

NOTE 9 - JOINT POWERS AUTHORITIES

Alameda County Schools Insurance Group: The District is a member with other school districts of a Joint Powers Authority, Alameda County Schools Insurance Group (ACSIG). ACSIG arranges for and provides workers' compensation insurance for its members. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years. There have been no significant reductions in insurance coverage from the coverage in the prior year. The following is a summary of audited financial information for ACSIG at June 30, 2018 (the latest information available) :

Total assets	\$	48,587,667
Deferred outflows	\$	546,377
Total liabilities	\$	27,296,818
Deferred inflows	\$	65,612
Net position	\$	21,771,614
Total revenues	\$	164,705,298
Total expenses	\$	158,538,548
Change in net position	\$	6,166,750

The relationship between the District and ACSIG is such that ACSIG is not a component unit of the District for financial reporting purposes.

NOTE 10 - COMMITMENTS AND CONTINGENCIES

The District is subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position or results of operations of the District.

The District has received federal and state funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could result in expenditure disallowances under terms of the grants, it is management's opinion that any required reimbursements or future revenue offsets subsequently determined will not have a material effect on the District's financial statements or results of operations.

At June 30, 2019 the District had commitments for capital construction projects totaling approximately \$13.98 million.

NOTE 11 - SUBSEQUENT EVENT

On July 31, 2019 the District issued 2019 General Obligation Refunding Bonds (2019 Refunding) totaling \$13,765,000. The 2019 Refunding bonds were issued for the purpose of refunding certain maturities of the District's 2004 Series D General Obligation Capital Appreciation Bonds. After the refunding transaction, the 2004 Series D Bonds and accompanying accreted interest are considered defeased and no longer reported as an obligation of the District. The 2019 Refunding Bonds bear interest at rates ranging from 4.0% to 5.0% and mature through August 1, 2034.

DUBLIN UNIFIED SCHOOL DISTRICT
 NOTE TO REQUIRED SUPPLEMENTARY INFORMATION
 For the Year Ended June 30, 2019

NOTE 1 - PURPOSE OF SCHEDULES

A - Budgetary Comparison Schedule

The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The budgets are revised during the year by the Board of Education to provide for revised priorities. Expenditures cannot legally exceed appropriations by major object code. The originally adopted and final revised budgets for the General Fund are presented as Required Supplementary Information. The basis of budgeting is the same as GAAP.

B - Schedule of the District's Proportionate Share of the Net Pension Liability

The Schedule of the District's Proportionate Share of the Net Pension Liability is presented to illustrate the elements of the District's Net Pension Liability. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

C - Schedule of the District's Contributions

The Schedule of the District's Contributions is presented to illustrate the District's required contributions relating to the pensions. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

D - Changes of Benefit Terms

There are no changes in benefit terms reported in the Required Supplementary Information.

E - Changes of Assumptions

The discount rate for Public Employer's Retirement Fund B (PERF B) was 7.50, 7.65, 7.65, 7.15 and 7.15 percent in the June 30, 2013, 2014, 2015, 2016 and 2017 actuarial reports, respectively.

The following are the assumptions for the State Teachers' Retirement Plan:

<u>Assumption</u>	<u>Measurement Period</u>		
	As of June 30, <u>2018</u>	As of June 30, <u>2017</u>	As of June 30, <u>2016</u>

The General Fund fund balance has increased by \$13,596,610 over the past three years. The District projects a decrease of \$7,433,814 for the fiscal year ending June 30, 2020. For a district this size, the state requires available reserves of at least 3% of total General Fund expenditures, transfers out, and other uses. For the year ended June 30, 2019, the District has met this requirement.

The District has incurred operating surpluses in each of the past three years, but anticipates an operating deficit during the 2019-20 fiscal year.

Total long-term liabilities have increased by \$112,376,065 over the past two years, primarily due to the issuance of general obligation bonds.

Average daily attendance has increased by 1,340 over the past two years and is anticipated to increase by 488 ADA during the year ending June 30, 2020.

DUBLIN UNIFIED SCHOOL DISTRICT
 NOTES TO SUPPLEMENTARY INFORMATION
 June 30, 2019

NOTE 1 - PURPOSE OF SCHEDULES

A - Schedule of Average Daily Attendance

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

B - Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. The District neither met nor exceeded its target funding. This schedule presents information on the amount of instructional time offered by the District, and whether the District complied with the provisions of Education Code Sections 46201 through 46206.

C - Schedule of Expenditure of Federal Awards

The Schedule of Expenditure of Federal Awards includes the federal award activity of Dublin Unified School District, and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate allowed in the Uniform Guidance.

The following schedule provides a reconciliation between revenues reported on the Statement of Revenues, Expenditures and Change in Fund Balances and the related expenditures reported on the Schedule of Expenditure of Federal Awards. The reconciling amounts represent Federal funds that have been recorded as revenues that have not been expended by June 30, 2019.

Description	<u>CFDA Number</u>	<u>Amount</u>
Total Federal revenues, Statement of Revenues, Expenditures and Change in Fund Balances		\$ 2,295,350
Less:		
Medi-Cal Billing Funds unspent	93.778	<u>(38,159)</u>
Total Schedule of Expenditure of Federal Awards		<u>\$ 2,257,191</u>

D - Reconciliation of Unaudited Actual Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the Unaudited Actual Financial Report to the audited financial statements.

Management's Responsibility

Management is responsible for compliance with the requirements of state laws and regulations, listed above.

Auditor's Responsibility

Our responsibility is to express an opinion on Dublin Unified School District's compliance with state laws and regulations as listed above based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* (Audit Guide). Those standards and the Audit Guide require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on Dublin Unified School District's compliance with the state laws and regulations listed above occurred. An audit includes examining, on a test basis, evidence about Dublin Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance with state laws and regulations. However, our audit does not provide a legal determination of Dublin Unified School District's compliance.

Opinion with State Laws and Regulations

In our opinion, Dublin Unified School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the state laws and regulations referred to above for the year ended June 30, 2019.

Purpose of this Report

The purpose of this report on compliance is solely to describe the scope of our testing of compliance and the results of that testing based on the requirements of the *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Governing Board
Dublin Unified School District
Dublin, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Dublin Unified School District as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Dublin Unified School District's basic financial statements, and have issued our report thereon dated December 11, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Dublin Unified School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Dublin Unified School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Dublin Unified School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses.

(Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Dublin Unified School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
FOR EACH MAJOR FEDERAL PROGRAM AND REPORT
ON INTERNAL CONTROL OVER COMPLIANCE

Governing Board
Dublin Unified School District
Dublin, California

Report on Compliance for Each Major Federal Program

We have audited Dublin Unified School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Dublin Unified School District's major federal programs for the year ended June 30, 2019. Dublin Unified School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of audit findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Dublin Unified School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Dublin Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Dublin Unified School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Dublin Unified School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

(Continued)

Report on Internal Control Over Compliance

Management of Dublin Unified School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Dublin Unified School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Dublin Unified School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

DUBLIN UNIFIED SCHOOL DISTRICT
STATUS OF PRIOR YEAR FINDINGS AND RECOMMENDATIONS
Year Ended June 30, 2019

<u>Finding/Recommendation</u>	<u>Current Status</u>	<u>District Explanation If Not Implemented</u>
2018-001	Implemented.	
<p><u>Condition:</u> There was a significant delay in completing the the District's capital asset summary and supporting detailed capital asset records for the year ended June 30, 2018. Entries to reported capital asset amounts, including transfers from Work in Progress to Buildings, and updates to the Districts capital assets tracking system were not identified in a timely matter after the fiscal year end of the District.</p>		
<p><u>Recommendation:</u> Management should develop and implement an internal control process over capital assets which ensures new additions, completed projects and the related depreciation expense are updated in the capital asset system in a timely manner, and which will not be impacted by turnover in the management team of the District. Management is also strongly encouraged to engage a third-party firm to conduct a full inventory of the District's capital assets records. This type of review should be conducted on a regular, scheduled basis.</p>
