

The Dublin Unified School District Board of Trustees has initiated the process to begin transitioning from at-large elections to “By-Trustee-Area” elections, beginning with the November 2018 election.

The following is an outline of the 90-day window for the District to host a series of required public hearings and community meetings to ensure compliance with the law and best ensure that the public has ample opportunity to engage in the process, as dictated by the California Voting Rights Act. The 90-day period began on the day the District adopted a resolution to initiate this process.
