- Wed Words of Wisdom

## TENACITY

If at first you don't succeed, try, try...to remember that there's an old, tired saying about this for a reason. Everyone "fails" sometimes. But "failure" is only "failure" if it happens on the very last page of your story, and since you're still breathing that's not where you're at right now. So if you've hit an obstacle on your way to success, don't sweat it. Dust off your air quotes and hang them on that "failure" as a reminder that "failures" are a part of success, and this is all part of your lifelong job. Then, get right back to it! Your next "failure" is waiting to bring you closer to your dreams.
