

Second Quarter Assessments

Unit C - Linear Relationships

- Proportional Relationships
- Representing Linear Relationships
- Finding Slopes
- Linear Equations
- Unit Project and Test

LT5 - I can find the rate of change and slope given a graph, table, or set of points.

LT6 - I can graph a relationship given an equation. (ES)

LT7 - I can write the equation of a line in slope-intercept form. (ES)

Test date

LT included

10/8 Tue	LT5 - I can find the rate of change and slope given a graph, table, or set of points. (10 pts)
10/15 Tue	LT6 - I can graph a relationship given an equation. (ES) (20 pts) LT5 (AGAIN) - I can find the rate of change and slope given a graph, table, or set of points. (10 pts)
10/22 Tue	LT6 (AGAIN) - I can graph a relationship given an equation. (ES) (20 pts)
10/29 Tue	LT7 - I can write the equation of a line in slope-intercept form. (ES)(20 pts) LT6 - I can graph a relationship given an equation. (ES) (20 pts)

Unit D - Linear Equations

- Linear Equations in One Variable
- Unit Project and Test

LT8 - I can solve a complex linear equation in one variable.

LT9 - I can solve a linear equation with variables on both sides of the equation. (Including all types of solutions.)

Test date
