

Hammers, dirt piles, trucks and crew, building great schools is what we do!

# Dublin Elementary School

## Construction News

Fall 2016

### Water Conservation & Management Project Update

The Dublin Elementary Water Conservation and Management Project is in the final stage of construction and will be complete in fall 2016. The exciting project will provide the Dublin Elementary campus and community with the next generation of outdoor spaces for education.

Construction included a new school garden and garden

activity shed; an outdoor classroom learning area; tree area; a fitness loop; additional play apparatus and new playground striping. Each area was designed with educational signage for students to explore! The project also includes renovation of playfields and conversion to DSRSD reclaimed water service. The design process was completed with input from multiple stakeholders including students, staff and parents of Dublin Elementary. The Water Conservation & Management Project was funded by Measure C. A big **Thank You!!** to the community for your support of Measure C, making this project possible.
