

Hammers, dirt piles, trucks and crew, building great schools is what we do!

Dougherty Elementary School

Construction News

New Kindergarten Complex

Fall 2016

Construction of the new Dougherty kindergarten complex is underway! We have been busy at your school all summer long working on the first phase of the new kindergarten complex. The project includes relocation of the existing daycare building and underground utility work (Phase 1) and installation of six new District standard kindergarten classrooms (Phase 2). The first phase of construction began in early July and will wrap up by late August. With a very short summer window for construction a large amount of preparation work was done to minimize campus disturbance. Phase 2 will include installation of six new District standard classroom buildings. A play structure with various play features and a rubberized play surface for safety, two shade structures with outdoor tables and benches, and hard scape and landscaping with trees for natural shading are included in Phase 2 of the project. Phase 2 will start in the fall and will be complete for the 2017/18 school year.

We would like to say a big Thank You!! to the community for your support of Measure C and Measure E which allow us the opportunity to make improvements to the Dougherty campus for our students and future generations to come. Go Dolphins!
