Construction News

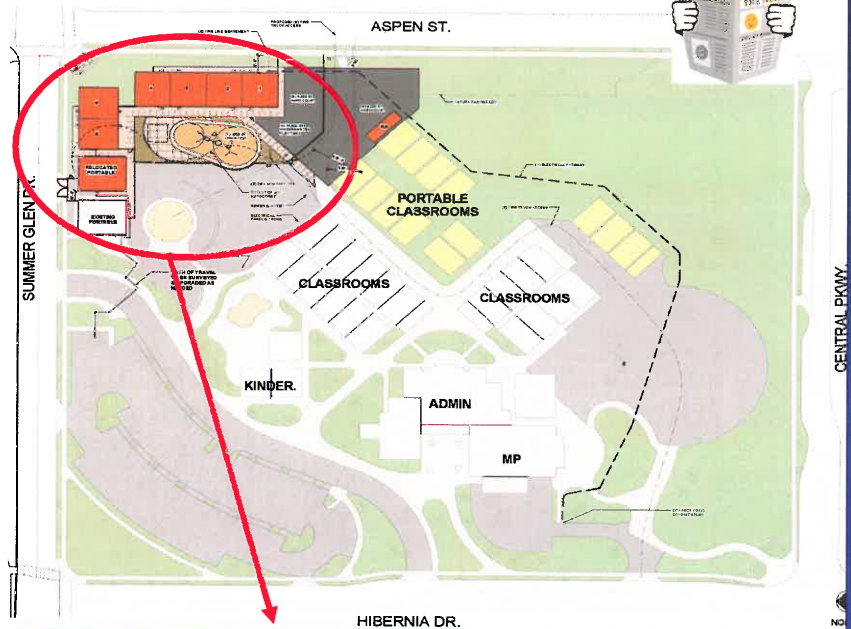

New Kindergarten Complex

Spring 2017

Dougherty Site Plan

The new kindergarten complex project is nearly complete! Even though we had a very long rainy season this year, a lot of work has been accomplished since construction of the Phase 2 New Kindergarten Complex began in December 2016. As a reminder, the Phase 2 scope of work included installation of six new District standard kindergarten classroom buildings, a play structure with various play features and a rubberized play surface for safety, two shade structures with outdoor tables and benches, hard scape and landscaping with trees for natural shading. Inside the classrooms there are new teaching walls and casework with 70" touchscreen monitors mounted on adjustable mounts. District standard technology for kindergarten classrooms, bathrooms in each classroom, sinks with drinking fountains and additional casework for storage are just a few of the outstanding features you will find in the new kindergarten classrooms when you return from summer break.

Once again we would like to say a big Thank You!! to the community for your support of Measure C and Measure E which allow us the opportunity to make improvements to the Dougherty campus for our students and future generations to come. Go Dolphins!
